To whom it may concern

Re: IP PA 500B

The IP PA 500B operates from 450MHz to 512 MHz frequency range, the operating frequency will be defined by the input radio. It is currently set to accept an input of up to 4 watts and takes the characteristics of the radio to which it is coupled.

The IP PA 500D is software controllable that is capable of accepting various digital protocols and can be set to linear mode.

We attest that we will apply the Declaration of Conformity procedure to any peripheral portion of any composite filing. We will comply with all requirements of part 90 as required

Yours Faithfully

A handwritten signature in black ink, appearing to read "Frank Romanin". The signature is written in a cursive style with a large, stylized 'F' at the beginning.

Frank Romanin CEO
