SHORT TERM

### **Exhibit**

Block Diagrams  
External Photos  
Internal Photos  
Operation Description/Theory of Operation  
Parts List & Placement/BOM

Schematics  
Test Setup Photos  
Operation Manual

### **Explanation as to Confidentiality**

RF Technology has spent 4 years and substantial effort in developing this product as a software designed radio it is one of the first in our knowledge of its kind. The uniqueness of the programmability of the features and different protocols by software and using IP as its core characteristic is an industry first. A number of the features use techniques and sophisticated algorithms that are patentable however we do not have the resources to pursue these. Having the subject information easily available to "competition" would negate this advantage. Not protecting the details of the design will result in financial hardship which in all likelihood would destroy the company.

### **Permanent Confidentiality:**

The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

### **Short-Term Confidentiality:**

The applicant requests the exhibits selected above as short term confidential be withheld from public view for a period of 180 days from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public. Applicant is also aware that they are responsible to notify ACB in the event information regarding the product or the product is made available to the public. ACB will then release the documents listed above for public disclosure pursuant to FCC Public Notice DA 04-1705.

### **NOTE for Industry Canada Applications:**

The applicant understands that until such time that IC distinguishes between Short Term and Permanent Confidentiality, either type of marked exhibit above will simply be marked Confidential when submitted to IC.

Sincerely,

By:
