To whom it may concern

Re: E2 TRX 500 B

The Eclipse2 UHF Band B Base station/Repeater operates from 450MHz to 480 MHz frequency range, the operating frequency can only be pre-programmed into the unit by the RF Technology's IP commander software, and this software will not be supplied with the Eclipse2 equipment to the end user.

We attest that we will apply the Declaration of Conformity procedure to any peripheral portion of any composite filing. We will comply with all requirements of part 90 and part 15 as required

Yours Faithfully

A handwritten signature in black ink, consisting of a stylized 'F' and 'R' inside a circle, with a long horizontal stroke extending to the right.
