

FCC ID Numbers

RF Technologies Pty Ltd have requested that the following FCC ID numbers be associated with the Equipment Authorisation for this product.

The product that was tested consisted of three modules which make up the base station repeater.

The repeater can be sold as a complete unit and the individual modules can also be sold separately.

Form 731 has been filed for the repeater containing all 3 modules as follows:

- Eclipse 200 Series base station repeater FCC ID: KRE200A-AN

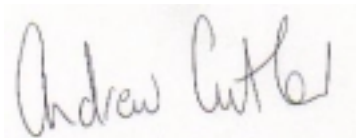

The client actually requested KRE200A/AN but the system would only allow a dash.

When the evaluation is carried out the client has requested that the following FCC ID's can also be approved:

- Eclipse R220 Receiver Module. FCC ID: KRER200A-AN

- Eclipse T200 Exciter Module. FCC ID: KRET200A-AN

- Eclipse PA220 Power Amplifier. FCC ID: KREPA220A-AN

A handwritten signature in blue ink that reads "Andrew Cutler". The signature is written in a cursive style with a large 'A' and 'C'.
