To whom it may concern

Re KRET800C and KRER800C

We are seeking approval for the above extension of frequency range as a class two permissive change. The frequency range needs to be extended to accommodate the operational frequency requirement for Florida Department of Transportation. Florida D.O.T. plans to deploy this equipment throughout the the state of Florida for their point to point links

Should you have any questions please donot hesitate to contact me

Yours Faithfully
