WB-660 Series

SAFETY INFORMATION

Package Contents

Parts	Description	Quantity
A	Wall Control	1
B	Mounting Accessories	1

Section 1- Overview

1 – Open/Close Garage Door Button
2- Light On/Off Button
3 – Remote Lock Button

WARNING:
- Wall Control must be installed within sight of the garage door, out of reach of children, at a minimum height of 5 feet (1.5m), and away from all moving parts of door.
- Be sure power is not connected before installing the Wall Control.
- Wall Control should only be activated when door can be seen clearly, is properly adjusted and there ae no obstructions to door travel.
- Always keep garage door in sight until completely closed. Never permit anyone to cross path of closing garage door.

Section 2- Installation of the Wall Control

Note: Battery for the Wall Control is included.

[Pix for reference only]

1. Pry off the back plate from the Wall Control.
2. Insert two AAA batteries (1.5V Alkaline Type).
3. Mount the back plate with the mounting accessories.
4. Attach the Wall Control on the back plate.

Section 3 – Programming the Wall Control
1. Put the opener/receiver that you plan to program into programming mode. Refer to the User's Instructions of that opener/receiver unit.
2. Once the opener/receiver is in programming mode, press the Garage Button (1) on the Wall Console to transmit the signal.
3. Once the Wall Console is programmed, the opener/receiver will quit from programming mode.
4. The Wall Console is ready to be used now to operate that opener/receiver.

Section 4 - Operation of the Wall Console
1. To open/close the Garage Door, press the Garage Door button (1) once. The LED flashes quickly.
2. To toggle the light on/off, press the Light On/Off button (2). The LED flashes quickly.
3. Remote Lock Button (3) – Press and hold the button for 6 seconds to enable/disable the lock function. The opener will ignore all the remote radio signals when Lock function is enabled.

Section 4 – LED light Indication

Garage Door LED flashes once every 5 seconds	Wall Console in Operating mode
Garage Door LED flashes quickly	Wall Console transmit signal
Lock LED flash every 5 seconds.	Remote Lock Enabled
