SUBJECT :TYPE ACCEPTANCEAPPLICATION for the AHV1600

Dear Sir,

By this letter THALES Communications is applying for the FCC type acceptance of the Radio-altimeter Transceiver type AHV1600 P/N AHV1600-01-XX XX X, in this version one P/N is used for the qualifications:

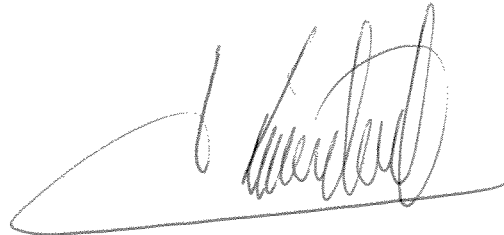

P/N : AHV1600-01-01 00 A

The AHV1600 Transceiver is a single channel unit used to provide the System Users with the Radio Altitude Information, which is the Main Landing Gear Wheels Height above the Ground.

This equipment is intended to be fitted on all type of Helicopters for new and retrofit program.

In this frame we would be pleased, according to the form 731 Section IV §4, the application date to be granted before the 1 th. of September 2009 .

Very truly yours

M. KWARTNIK
