Attention: American Certification Body

#### 4200 Series Radio Justification for Permanent Confidentiality Protection

The R&S®Series4200 radios are sold directly to the end users that are government organizations or companies under government control (Air Navigation Service Providers and/or Military organizations).

They receive the manuals together with the devices, with the purpose of installation and usage.

As the manual may contain sensitive information (e.g. description of features) that could represent an advantage for the competitors, the end user is asked to keep the manuals within his organization.

Moreover, the R&S®Series4200 radios are used for safety critical services (air traffic control). Therefore, they are installed in locations (radio stations) where only authorized personnel have access.

For these reasons, R&S requests the permanent confidentiality for both the manuals and internal photos.

Sincerely,

Robert Lambertus  
Corporate Quality and Environmental  
Management

Richard Friedl  
Secure Communications Division
