Attestation of Measurement method

FCC ID: KVV-QPS2KP2

IC ID: 4431C-QPW2KP2, HVIN: QPW2K

Report: 80186184-05_Rev1 and 80186184-06_Rev1

We, CSA Group Bayern GmbH (as agent for Rohde & Schwarz GmbH & Co. KG), hereby want to declare the size of the Rohde & Schwarz GmbH & Co. KG device QPS Walk2000 does not allow to perform the transmission measurements acc. to FCC §15.517, §15.521 and ISSED RSS-220 using the whole device.

Thus, the TCB deemed it as necessary to perform the UWB measurements acc. to FCC §15.517, §15.521 and ISSED RSS-220 with a single, separate UWB transmitter unit which behaves exactly like an UWB transmitter in the device, as only one UWB transmitter is active at a time in the application.

The measurements acc. to FCC §15.109, §15.209 and ISSED ICES-003, Issue 7 have been performed with a complete Rohde & Schwarz QPS Walk2000 device. The manufacturer Rohde & Schwarz will follow the SDoC procedure acc. to FCC 15B and ICES-003.

Sincerely,

Marie-Luise Schuster
GMA Project Coordinator
