

Sky M Antenna

Sky M Antenna

1- Device and Antenna Structure

Model name and manufacturer of the antenna: BE 10 BT-ANT, 045-0778

Manufacturer: Sonova AG

Technical key information:

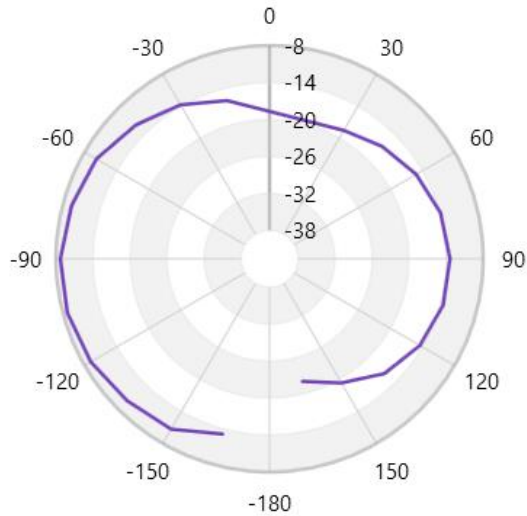

Antenna Type: Small magnetic loop antenna

Antenna Gain: **Peak gain** -7.0 dBi (built in final HI) , **Avg Gain** : -11.0dBi

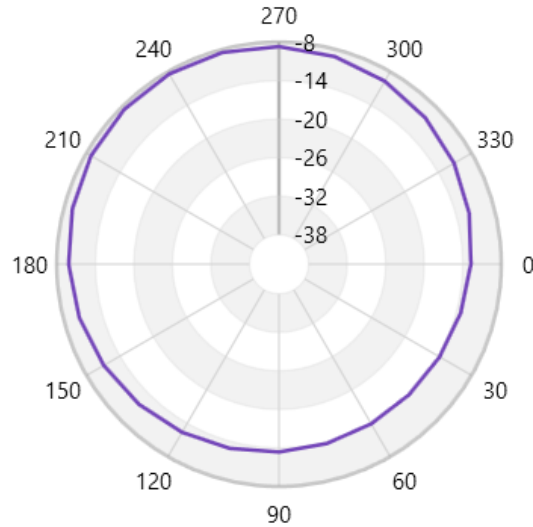

Connector Type: Soldered pad connection on flexible PCB, via a transmission line

Sky M Antenna

2- 3D Radiation Pattern at 2.44GHz

Elevations (°)

Azimuths (°)
