Product Equality Declaration

We, Sonova AG, hereby declare under our own responsibility that the products listed below as “RF Equivalent Products” have no differences in the design of the radiofrequency relevant parts of the product, neither in the hardware nor in the embedded software.

On the embedded software, the different FW versions are representing different product specific applications and parameters (mostly flags to determine which features are enabled or disabled depending on pricing level).

On the hardware side, the only differences are the missing telecoil in the 312 devices, and the different battery size (size 13, size 312), both which are not radiofrequency relevant.

The schematic, PCB layout, block diagram and rechargeable battery of the devices are described in the technical construction files with the document ID:

- Phonak Audéo P-13T: PDL-515
- Phonak Audéo P-312: PDL-514

Test results obtained with basis hardware (tested representative model) are therefore fully valid for all variants listed under “RF Equivalent Products”

Products with basis Hardware (tested representative model)	Phonak RF Equivalent Products
Phonak Audéo P90-13T HW version: 050-0770-xx FW version: 067-1438	Phonak Audéo P90-312 HW version: 050-0769-xx FW version: 067-1434
	Phonak Audéo P70-312 HW version: 050-0788-xx FW version: 067-1435
	Phonak Audéo P50-312 HW version: 050-0787.xx FW version: 067-1436
	Phonak Audéo P30-312 HW version: 050-0786-xx FW version: 067-1437
	Phonak Audéo P 312 Trial HW version: 050-0844-P6 FW version: 067-1434

Products with basis Hardware (tested representative model)	Phonak Hardware Equivalent Products
	Phonak Audéo P70-13T HW version: 050-0791-xx FW version: 067-1439
	Phonak Audéo P50-13T HW version: 050-0790-xx FW version: 067-1440
	Phonak Audéo P30-13T HW version: 050-0789-xx FW version: 067-1441
	Phonak Audéo P-13T Trial HW version: 050-0845-P6 FW version: 067-1438

xx – stands for color code identification
