## 3 Product Labelling

Pursuant to §2.925 of 47 C.F.R. the products with FCC ID: KWC-TWE21EB, which are subject of this filing, shall bear a permanently affixed, readily visible label listing the information as specified in §2.926 and §15.19(a) of 47 C.F.R. Due to the specific use and size of these wireless audio devices, it is not appropriate to permanently affix a label on the outer surface of the devices in order to prevent any possible skin irritations. Additionally, due to the small size of the devices, the size of the certification number will be smaller than 2 points and not easily visible. Therefore, pursuant to paragraph §15.19(a)(5) of 47 C.F.R., the FCC ID and the statement specified in §15.19(a)(3) are placed in the User manual as shown in the example on Figure 2.

Figure 1. Product FCC ID: KWC-TWE21EB (Models TWE21EB and TVCE1-EB)

This device complies with Part 15 of the FCC Rules and with Industry Canada's license - exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules and ICES-003 of Industry Canada. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The device generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Earbuds Model: TWE21EB / Charging case Model: TWE21  
 FCC ID: KWC-TWE21EB / KWC-TWE21  
 IC: 2262A-TWE21EB / 2262A-TWE21

Earbuds Model: TVCE1-EB	Charging case Model: TVCE1
FCC ID: KWC-TWE21EB	FCC ID: KWC-TWE21
IC: 2262A-TWE21EB	IC: 2262A-TWE21
