Labeling

The FCC and CI equipment labels (see fig 1) are printed on the case (tampography, white).

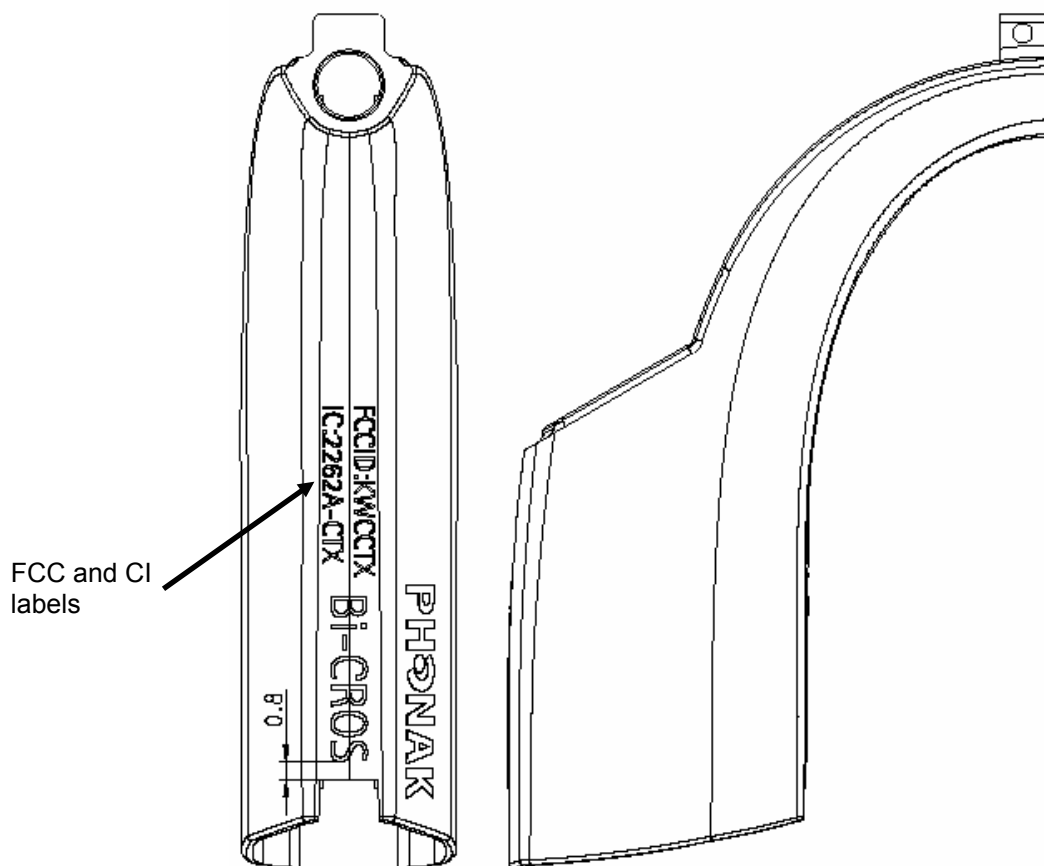

fig 1 BICROS CTX label

Note for FCC:

Since the device is small, it is not practical to place the complete compliance statement as specified in Section 95.1017 (a) on the equipment label. Instead, the required information was included in the user manual as shown below (95.1017 (c)):

FCC ID: KWCCTX

This device may not interfere with TV reception or federal government radar, and must accept any interference received, including interference that may cause undesired operation.

Made in Switzerland

See User's guide: PHONAK_BICROS_CTX_USER_GUIDE_DRAFT

For Canada: IC: 2262A-CTX
