Federal Communication Commission

Confidentiality request

FCC ID: KWCWALLP

**Applicant: Phonak Communications AG
Länggasse 17
CH-3280 Murten
Switzerland**

To whom it may concern:

Phonak Communications AG requests that the documents listed below be withheld from public inspection in accordance with section 0.459 of the Commissions Rules.

Documents for which the confidentiality request is sought:

<u>File name:</u>	<u>Information contained:</u>
- Wallpilot Description.pdf	Operational description with block diagram
- Schematics.pdf	Schematics

All of these documents treat confidential business information which. Disclosure would, in effect, give away the fruits of the labours of Phonak's engineering department and personnel, who have designed the equipment and manufacturing process. Disclosure would also offer competitors additional unwarranted insight into the state of the product development.

The information contained in these documents is kept confidential by Phonak Communications AG and not made available to third parties except to non-disclosure agreements.

The material should not be disclosed for at least 25 years. While improvements in the design are made relatively frequently, disclosure of the design information would lead so insights into both design and manufacturing techniques that could have an adverse competitive effect for many years to come.

Thank you for your consideration in this matter

Sincerely

Erich Staub
