

Background

A workstation on a dark table. On the left is a black desktop PC tower. In the center is a monitor displaying a blue desktop background with a window open. To the right of the monitor is a white tablet. In front of the monitor is a black keyboard and a black mouse. The table has yellow support legs.

A black power distribution unit (PDU) mounted on the wall. It has several cables plugged into it, including red, blue, and black cables. The unit is connected to a power outlet on the wall below it.

A large silver and black electronic device, possibly a power supply or amplifier, mounted on a metal stand. The front panel has several ports and a blue handle. It is connected to the PDU on the wall.

A white table with an oscilloscope on it. The oscilloscope screen shows a grid with a signal trace. The table is positioned to the right of the workstation.
