Because the device is too small to accommodate a label with the Compliance Statement, the following statement will be contained in the (car) Owner's Manual:

This device complies with Part 15 of the FCC Rules and with RSS-210 of Industry Canada. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

See also Manual Statement in Exhibit J.
