

RE: Delphi Automotive Systems

FCC ID: L2C0024R

The following is in response to the comments made on the above referenced application:

1. Please revise the schematics exhibit as the schematics uploaded are unreadable.

The exhibit has been updated.

2. Please upload original external photos for comparison.

Original photographs should be available to ATCB as the original application was processed through your organization. However, we have now uploaded the original photos for review.
