RE: Request for FCC Class II Permissive change for FCC ID: L2C0080TR

Dear Examiner,

This is to request a Class II permissive change for FCC ID L2C0080TR, with an original grant date of 06/05/2019

The major changes filed under this application is:

1. The USB connector is rotated 90 degrees
2. L1 inductor added to DC power line of product
3. Diode relocated to allow L1 to be added
 - a. Does not affect RF layout of PCB in any way

No changes to RF output power, modulation or spurious emissions are expected. Changes only impact non-RF parts of the design.

Sincerely,

A handwritten signature in blue ink that reads "Brian W. Johnson".
