Dear Mr. Feudi:

Per our discussion, the following statement will be incorporated in the PTS users manual. Users of this technology are also required to comply with the satellite service providers integration guidelines which stipulate the correct use of the radio frequency spectrum.

RAS Site avoidance

This device complies with the requirements for radio astronomy site avoidance as specified by CFR 25.213. Additionally, this device also complies with the requirements for use as specified by the Globalstar integration manual. Globalstar has provided instruction for frequency use in regions of the world as well as compliance to CFR 25.213.

The paragraph above will be incorporated into the appropriate documentation immediately.

Best regards,

David Pettit
