

*Testing Tomorrow's Technology*

10/31/2007

Mr. Doug Noble  
ATCB  
RE: Axon, LLC  
FCC ID: L2V-PT1

Mr. Noble,

Thank you for your comments in your letter of October 30, 2007. Below is my response to your comments on this application. I have included your original comments in my response.

I have a few comments on this Application.

1. FYI - DoC is not required for these unless this can connect to a computer.

Acknowledged

2. The FCC ID is incorrect in the STP notices of the user manual. Please revise.

Revised and Uploaded

3. The IC label is missing the model number. Please correct this and upload photos.

Model Number (SPT) is located on the front of the EUT. The model number contains the global symbol, but is intended to be the SPT for Satellite Personal Tracker.

4. IC limit on page 52 of the test report appears to be for "off test". Please clarify.

Corrected to represent carrier off limits only, and Uploaded.

5. IC test report section 2.12 plots seem to be located in the wrong place in the test report. Please revise and put section 2.12 plots with section 2.12.

Revised and Uploaded

6. Page 53 and 54 are the same in the test report. Please revise.

Corrected and Uploaded

Please contact me with any further questions.

Sincerely,

Louis A. Feudi  
Vice President of Operations and Engineering
