RE: FCC ID: L2VAXTRACKER\_ATCB000914

Attention: Lou Feudi

I have a few comments on this Application.

1. Please remove any rf shielding and provide photos of the circuitry underneath.
2. Please note that only in exceptional cases can photos be considered confidential. Please remove the photos from the confidentiality request as this application does not appear to meet the requirements to keep photos confidential.
3. Please note that the exhibit labeled "Block diagram" is not a block diagram. Please note that licensed devices do not require a block diagram to be provided, however, if a block diagram is provided it must meet the requirements of 2.1033 for block diagrams. If a block diagram is to be provided with this application, please provide an appropriate block diagram in accordance with 2.1033.
4. Please note that the FCC accepts TIA603-1 antenna substitution methods for licensed devices for ERP and EIRP measurements. Please note that your report does not provide an appropriate procedure for how you made the power measurements. The plots provided give no indication as to the method used. Please provide evidence that antenna substitution methods were used to make EIRP power measurements or that the plots are the conducted power at the antenna terminals. Please clearly identify the methods used for power measurements.
5. Please provide the appropriate rf caution statement in the user manual.
6. Please note that the schematics provided are unreadable. Please provide readable schematics.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
