Subject: FW: FCC Certification

Dennis,

Gary Naden, of Axonn L.L.C, has confirmed that the following statement will be placed in a visible location within the AXTracker operating/installation instructions:

"NOTICE: This equipment complies with the FCC RF Exposure Limits. A minimum of 20 centimeters (8 inches) separation between the device and the user and all other persons should be maintained."

I hope this is acceptable. Please contact me if you require further written confirmation.

Lou
