Dear Sir,

Submitted herewith, on behalf of our customer is an amendment to the subject application, provided in response to your request for technical information:

Q1. An SAR test report is required for portable devices operating with more than 50 mW RF power at 2.4 GHz, and installed closer than 2.5 cm from a person's body according to OET Bulletin 65, Suppl C (01-01) Footnote 14. Please provide the separation distance from the antenna to the person's head or body when using this device.

Answer:

The separation distance from antenna to person's body when using this device is approx. 2.1 cm according to the antenna specification exhibit cross-section drawing (without consideration of the thickness of the user's clothing).

Please find attached SAR test report (with integrated supplement relating to FCC requirements) for the internal RF module.

...

We hope this information is sufficient to issue the grant. If you have further questions please do not hesitate to contact us.

Sincerely,

Jürgen Baschin
