Subject: Request for a Class II Permissive Change

FCC ID: L52CT-M7CEO1
Grant Date(s): 2021-01-19

Pursuant to CFR47 §2.1043, the Grantee hereby requests a Class II Permissive Change for the above identified device.

Following changes apply to the modified device:

Intended as body worn device with usage distance below 20cm.

Added SAR Assessment Report.

Simultaneous transmission with BT Modul (FCC ID:L52CT-BT32I) inside dedicated host device CT-DECT Multi M7 as described in the filing.

There are no further changes made to the original product. There are no changes made to the transmitter circuitry and the above listed changes result in the same RF characteristics as in the original filing - therefore the not repeated test results continue to be representative of and applicable also to this modified device.

There is neither an increase in the output power, nor a change of the RF Exposure condition or equipment class and there are no other changes to the device that indicate a need for a new FCC ID.

Sincerely,

A handwritten signature in blue ink, appearing to read "H. Dreinert".

Signatory

Dipl. Ing. (FH) Horst Dreinert
Graduated Approval Engineer
