FCC ID: L6AR1900G-1-4  
Subject: Class II Permissive Change of FCC Part 24 Certification Application for Research In Motion Limited, BlackBerry Handheld Model R1900G-1-4

Research In Motion Limited (RIM) herein is submitting Exhibits: SAR, EIRP and Spurious Emission reports for the BlackBerry Handheld Model R1900G-1-4 pursuant to Part 2 and 24 of the FCC rules, Class II Permissive Change procedure.

The radiated receiver sensitivity of the equipment has been improved by means of swapping a portion of the Vcc and Gnd layers within the radio PCB, as well as a small change to the internal antenna and re-optimization of the components in the matching circuit. These modifications affected the near field SAR. Consequently a new SAR report is herein submitted along with a new EIRP and Spurious Emissions report.

Should you require additional information, or have any questions, please do not hesitate to contact the undersigned.

Yours truly,

A handwritten signature in black ink, appearing to read 'M. Attayi', is written over a vertical line.
