**Overall Assessment Letter for RIM Blackberry Model RBK41CG  
FCC id: L6ARBK40CG**

I have reviewed this Class 2 Permissive change and find it compliant. This CDMA 850/1900 handset also supports Bluetooth and has a USB port for connection to Computers. This class two permissive change applications provides updated RF and T-Coil HAC reports demonstrating compliance against the C63.19-2007 standard. Device changes are described in the change description exhibit. As a result of the assessment review a cover letter was provided to request this Class 2 Permissive change and an additional confidentiality letter was also received.

Yours sincerely
