March 26, 2012

Date: April 3, 2012

SUBJECT: FCC Grant Dismissal for FCC ID as below:

L6AREF30LW

L6AREG50LW

L6AREH50UW

To Whom It May Concern:

On behalf of Research In Motion Limited, RIM Testing Services hereby declares that RIM devices: REF31LW, REG51LW and REH51UW will have NFC function in the U.S. Market since the NFC circuitry and antenna was implemented on the device under test, but the software was not implemented.

Current models have enabled function under the same FCC IDs.

Therefore, we would like to submit a new application and dismiss the original grant with FCC ID: L6AREF30LW, L6AREG50LW and L6AREH50UW.

We also declare that no unit has been sold in U.S. Market yet.

A handwritten signature in blue ink that reads 'Masud Attayi'.
