Subject: Can a C2PC be used for C1PC

Inquiry: Hello,

We have a client who wishes to perform a C2PC on there filing but the change is obviously a C1 change. Can a C2PC be performed for a C1 change?

The details of this particular case, the Grantee added a new color to the enclosure and they would like the photos on the FCC site to show both enclosure colors.

Please advise, thank you.

FCC Response on 12/01/2017:

A C2PC filing can be performed. Please ensure the cover letter and/any exhibits added are in accordance with the request.
