Dear Bill,

With regards to the report reference RG611553, it appears that there is a typographical error on page 4. The calibration due date is stated as being 21st January 2003 however the actual calibration due date is 21st January 2004. I have checked the equipment calibration history and verified that this 2004 date is the correct due date.

Our apologies for any confusion caused by this error.

Yours truly,
