

## Response to TCB Findings

1. Please specify the DC voltages and currents in the final RF amp. stage as required by 2.1033(c)(8).

Per the client - DC Voltage = 5V, DC Current < 200mA

2. A warning in the manual about the maximum allowed antenna gain is required as instructed by the FCC. See "LabHelp Clarifications" document.

Revised manual attached.

3. A warning about the labeling requirement for the host is required in the manual as instructed by the FCC. The manual should instruct the installers of this module to label the exterior of the host so that it states the following; "Contains "FCC ID: L9N-7880-B".

Revised manual attached.
