FCC Class II permissive change

To whom it may concern:

AES Corporation hereby requests Class II permissive change for the following Product / Model No.: RF DATARADIO / 52-7880LC2.(FCC ID: L9N-7880LC2)

The product uses a modem tone to send the digital data. A modem uses a subcarrier tone to convey the data. Data rates are still the same. The RF output power can not be changed. Also, there are no changes of hardware and software.

Therefore, we would like to add emission designator 10K0F2D on the certificate.

Sincerely,

Signature

Name: Michael Sherman
Title: President
Company: AES Corporation
