GH3065 (Base Power PCB) SCHEMATIC DIAGRAM

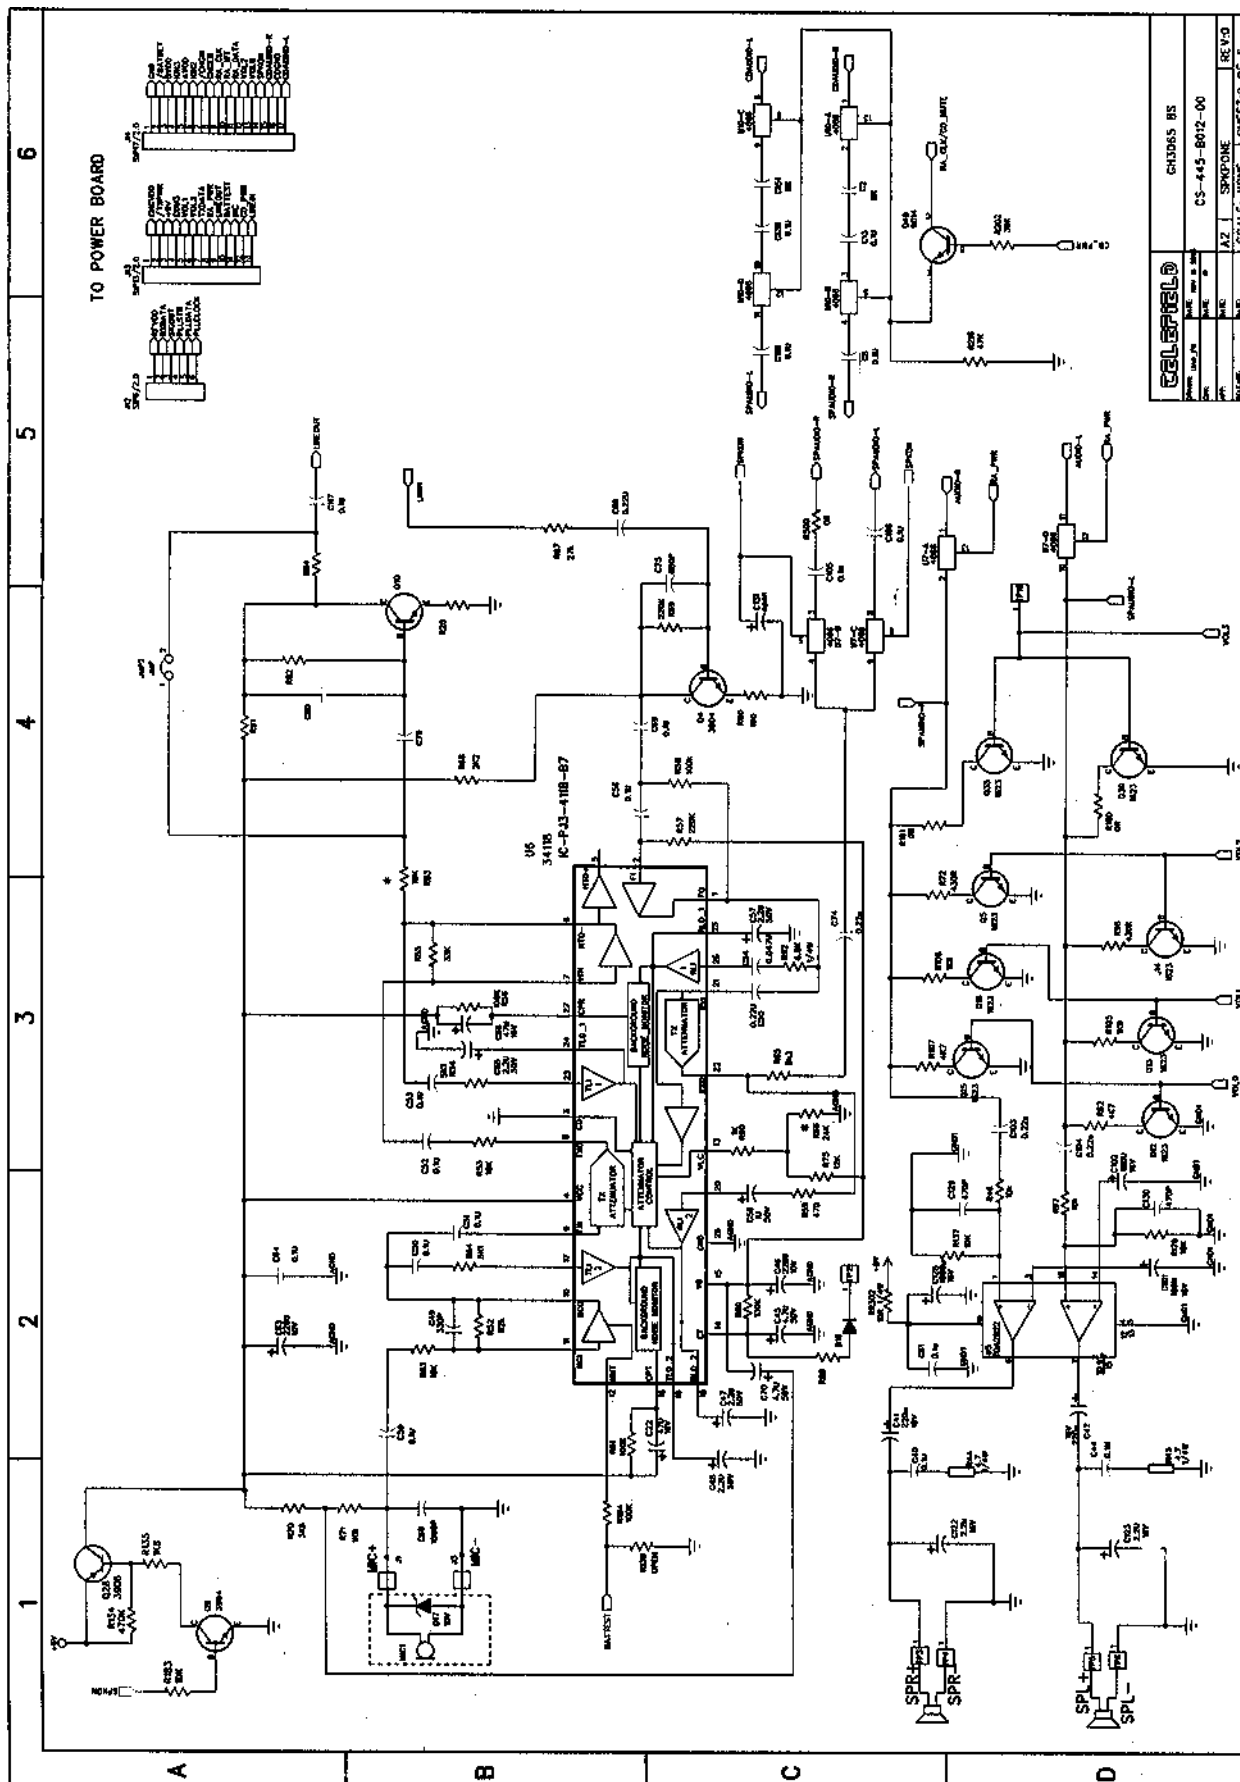

The diagram is a detailed electronic schematic for a radio receiver. It features several key components and sections:

- Input Section (Left):** Includes an antenna (ANT) connected to a matching network with capacitors (C45, C46) and inductors (L1, L2). This is followed by a tuned circuit with inductor L3 and capacitor C47.
- Detector and AF Section (Middle-Left):** Contains a detector diode (D1), a variable capacitor (VC1), and an audio frequency (AF) amplifier stage with a transistor (Q1) and various biasing components.
- IF Section (Center):** Shows intermediate frequency (IF) stages with tuned circuits (inductors L4, L5 and capacitors C48, C49) and a variable capacitor (VC2).
- VFO and Mixer Section (Middle-Right):** Includes a variable frequency oscillator (VFO) with a variable capacitor (VC3) and a mixer stage (Q2) for frequency conversion.
- Detector and AF Section (Right):** Features a second detector diode (D2), a variable capacitor (VC4), and another AF amplifier stage with a transistor (Q3).
- Power and Output Section (Far Right):** Contains a power amplifier stage (Q4) driving a speaker or earphone through a coupling capacitor (C50) and a transformer (T1).
- Power Supply (Bottom):** Shows a battery (B1) connected to the circuit through a series of resistors (R1, R2, R3, R4, R5, R6, R7, R8, R9, R10, R11, R12, R13, R14, R15, R16, R17, R18, R19, R20, R21, R22, R23, R24, R25, R26, R27, R28, R29, R30, R31, R32, R33, R34, R35, R36, R37, R38, R39, R40, R41, R42, R43, R44, R45, R46, R47, R48, R49, R50, R51, R52, R53, R54, R55, R56, R57, R58, R59, R60, R61, R62, R63, R64, R65, R66, R67, R68, R69, R70, R71, R72, R73, R74, R75, R76, R77, R78, R79, R80, R81, R82, R83, R84, R85, R86, R87, R88, R89, R90, R91, R92, R93, R94, R95, R96, R97, R98, R99, R100) and a network of capacitors (C1, C2, C3, C4, C5, C6, C7, C8, C9, C10, C11, C12, C13, C14, C15, C16, C17, C18, C19, C20, C21, C22, C23, C24, C25, C26, C27, C28, C29, C30, C31, C32, C33, C34, C35, C36, C37, C38, C39, C40, C41, C42, C43, C44, C46, C47, C48, C49, C50, C51, C52, C53, C54, C55, C56, C57, C58, C59, C60, C61, C62, C63, C64, C65, C66, C67, C68, C69, C70, C71, C72, C73, C74, C75, C76, C77, C78, C79, C80, C81, C82, C83, C84, C85, C86, C87, C88, C89, C90, C91, C92, C93, C94, C95, C96, C97, C98, C99, C100) for filtering and biasing.
