### Radio Declaration Letter

Equipment Type: Access Point

Model(s): C9124AXE-X

Where X Denotes Country Domain (X= -A, -B, -Q, -ROW)

We, Cisco Systems, Inc., hereby declare that the product: Cisco Outdoor Access Points model C9124AXE-X complies and will enforce the regulatory lifecycle compliance according to security measures and systems to ensure that only authenticated, legal as granted software is loaded and operating the device will not allow a user to operate the transmitter with operating frequencies, output power, modulation types or other radio frequency parameters outside those that were approved.

Declaration:

The Original/Initial SW Version: Cisco IOS-XE 17.6.2 – Supports 20/40/80Mhz Bands. This Initial SW version Cisco IOS-XE 17.6.2 does not support 80+80MHz Contiguous Band mode.

Cisco agrees to update services via software to enable 80+80 MHz band through a Class II permissive change application to change the original grant by ensuring all applicable rule parts are met.

**Should you have any questions, please contact me.**

Best Regards,

A handwritten signature in black ink, appearing to read "Sam Kim".
