Change in FCC Identifier

Rich

Due to changes taking place, Aironet Wireless Communications FCC ID Grantee Code : LOZ will be replaced by our new parent company 's (Cisco) FCC Grantee Code : LDK.

This letter authorizes the change from using our FCC Grantee code on our products to that of Cisco Systems. The copies of the certifications will still be maintained at our location. The products that will be labeled with the new grantee code will be electrically and mechanically the same as the radios approved under the Aironet FCC Grantee Codes.

The following products will be effected

Product	Aironet FCC ID	Cisco FCC ID
PC3500	LOZ102033	LDK102033

The application fee has been filed with the LOZ102035 product and that fee also cover this product.

Regards

Dave Case
