Subject: RE: Cisco 05U3478 TCB min. filing (Assessment No.: AN05T4843 (DTS) and AN05T4844 (UNII)) Revised!

Dear Helen,

Question #1: Please explain model difference of the three models listed in the filing.

Answer: The AIR-AP1010-A-K9 uses only the integral antennas currently approved with the product. The AIR-AP1020-A-K9 has hardware identical to the AIR-AP1010, but uses external antennas. The AIR-AP1030-A-K9 is identical to the AIR-AP1020, but has a different software load.

Thank you,

Danielle Zhan
