Dear Sir/Madam,

We, Cisco Systems, Inc., hereby authorize Bay Area Compliance Lab Corp to act as a laboratory for testing and test report generation for the following project:

Product: Cisco Catalyst 9130AX Series Wi-Fi 6 Access Points
Model:
C9130AXE-B (USA), FCC ID: LDKCNWLE2638
C9130AXE-A (Canada), IC: 2461N-CNWLE2638

The EUT is an updated version based on previous certified device approved on 2020-02-07 with FCC ID: LDK948342197 and IC: 2461N-948342197. The change between the current device and previous device is as following:

1. Original BLE chipset was replaced to Silabs BLE chipset.

Since 2.4 GHz Wi-Fi, 5 GHz Wi-Fi and Chillwave circuitry remain unchanged, spot checking will be verified and partial test data will be referred to original device.

We will take full responsibility that the test data as referenced represents compliance for the new FCC ID and IC ID.

Sincerely,

A handwritten signature in black ink, appearing to read "Samuel Kim".
