Carling Ave., Building 94 Ottawa,
Ontario K2H 8S2 Canada

Dear Sir/Madam,

We, Cisco Systems, Inc., hereby authorize Bay Area Compliance Lab Corp (New Taipei Lab) to act as a laboratory for testing and test report generation for the following project:

Product: Cisco Catalyst 9120AX Series Wi-Fi 6 Access Points

Model:

C9120AXI-B (USA), FCC ID: LDKDVONE2597

C9120AXI-A (Canada), IC: 2461N-DVONE2597

The EUT is an updated version based on previous certified device approved in 2019 with FCC ID: LDKVCVER1937 and IC: 2461N-VCVER1937. The change between the current device and previous device is as following:

1. Original BLE chipset was replaced to Silabs BLE chipset

Since 2.4 GHz Wi-Fi, 5 GHz Wi-Fi and Chilwave circuitry remain unchanged, spot checking will be verified and partial test data will be referred to original device.

We will take full responsibility that the test data as referenced represents compliance for the new FCC ID and IC ID.

Sincerely,

A handwritten signature in black ink, appearing to read "Samuel Kim".
