Software Security Attestation

The channel and frequency bands list in this filing is information when programmed into the NVM will not be accessible and cannot be changed by the end user. The transmitter is approved as a non-software defined radio and OEMs and third party system integrators do not have the ability through software to allow configuration controls that would permit the device to operate outside the grant conditions per FCC KDB 594280.

A handwritten signature in black ink, appearing to read "Thorpe".

Gerard Thorpe
Manager Test Development Engineering
