

<Product name> 55/75

TTC60-35 and TTC60-36

User Guide

These products are all-in-one devices that provides everything you need to collaborate with your teams in physical meeting rooms. The device is a presentation screen, a digital whiteboard, and an audio and video conferencing system, all in one product. The device also securely connects to virtual meeting spaces to facilitate a continuous workflow before, during, and after everyone has left the physical conference room.

Introduction

The device has a high-resolution 4K LED screen. We offer two screen sizes: 55 inch (TTC60-35) and 75 inch (TTC60-36). The device has an integrated dual 4K camera, which can capture people that are close to the camera as well as provide close-ups of speakers that are far away. Embedded microphones support speaker tracking. Integrated speakers and internal or external microphones provide a great audio experience. You can share content either using a cable or wirelessly, and the device has a capacitive touch interface so that you can easily whiteboard and annotate on content. The device offers USB pass-through, so that the device's camera, microphones, and screen can be used for apps that are running on your laptop.

The device also supports features such as automatic wake-up/standby, easy meeting-join experience with One Button to Push (OBTP), digital signage, web apps, metrics enabling analytics for better resource planning, customizations through the API and macros, and more.

The device can be registered on the premises or to the Webex cloud. It is optimized for the Webex cloud platform and draws power from the Cisco Webex service.

Using the product

Place calls using name, number, or address

1.

Tap the Call button.

2.

Tap the Search field. This opens the keyboard.

3.

Type in a name, number, or address. Matches and suggestions appear as you type. If the correct match appears, tap it, otherwise keep typing.

4.

Once you've located and selected your contact, tap the green Call button to place the call.

Share content outside calls

1.

Outside a call, connect your presentation source via cable or an app for wireless sharing. Your source screen shows up on the device.

2.

Swipe up from the bottom if you want to select another app or the home screen to view instead.

3.

Disconnect your source to stop sharing it to the device. If you're sharing wirelessly, tap the screen and then tap **Stop preview**.

Share content in a call

1.

Tap the screen during a call to get the call controls and then tap **Share**.

2.

Select a source to share from. If it's connected by cable, tap **View** to preview and then tap **Share** when you're ready. Tap **Share** in call to start sharing right away.

3.

To stop sharing content, tap **Stop sharing**.

Use the Board as a digital whiteboard

- Undo and redo
- Selection tool
- Pen tool: color, line thickness, eraser, shapes adjuster
- Shapes: insert a ready-made shape
- Sticky note
- More: Save, Send, Name, New, and Delete

}

Your Board is also a digital whiteboard. It's an infinite canvas: the size of a page is as large as you want.

To open the whiteboard just tap the **Whiteboard** button on the Board's homescreen. Use the pen or your finger to draw and write on the whiteboard.

You can send your whiteboards as emails to the recipient of your choice. To do this, your video support team must have configured your Board to use a mail server.

Swipe up from the bottom of the screen to open the task switcher. You'll see other open apps, current whiteboards, and the homescreen there, and can easily switch between them by tapping the one you want.

To clear all your whiteboards for the next user, open the control panel and tap **End Session**.

Annotate shared content on the Board

1.

Outside calls, share your computer screen with the image you want to annotate on it, to the Board. Tap the **Annotation** button.

2.

Make your annotations using the tools across the bottom of the screen. You can then resume a presentation or disconnect your source completely.

3.

Your annotated image is saved as a whiteboard. Swipe up to see all your current whiteboards. You can add another or delete an existing one. They'll be deleted when your session is over. If you want to send a whiteboard, see the next section about emailing it.

Send annotations or drawings by email

1.

On your whiteboard, tap **More** and then tap **Send to Email**.

2.

Start typing a recipient name or address. Select the person and tap the right arrow.

3.

Add more recipients if you want, and tap the white arrow when you're done.

4.

Select the whiteboard(s) you want to send. Tap the white arrow again, and your whiteboards are sent.
