Getting Started

Battery Installation

1. Insert the end of the battery with the gold electrical contacts into the M90 housing an angle as shown, then swing down flush with the back of the M90.
The battery should insert easily if properly aligned! Do not use force!
2. Slide the battery into place so the end no longer protrudes from the the housing.
3. While holding the battery in place, slide the battery lock fully inwards to lock the battery in place.

Use only Unication Lithium Ion Polymer batteries intended for use with the M90.

Before First Use - Fully Charge the Battery

1. Connecting the battery charger:
 - ▶ Plug charger into a 120V AC power source.
 - ▶ Plug charger connector into rear of M90 as shown in illustration. IMPORTANT: The "☐" symbol on the connector must face upwards.
 - ▶ Charging will begin and battery status icon will flash.
 - ▶ Charging is complete when icon stops flashing.

NOTE: A full charge can take 4 - 5 hours.
2. Disconnecting the battery charger:
 - ▶ Unplug charger from the M90 by pulling straight out.

Set Date / Time and Owner Information

Select in the Main Menu

Select **Owner Information** and type your name, phone number and any comments. When done, press **ESC** to save changes and exit.
 Select **Date and Time**.
 Navigate from field to field and press **ENTER** to select entries in each field.
 When done, press **ESC** to save changes and exit.
