Re: Medtronic , Inc.
Non-Routine Confidentiality Request
FCC ID No. :LF519061

Ladies and Gentlemen:

We understand Internal Photos are not typically held confidential, but may be eligible for confidentiality in certain circumstances. Confidentiality for this information may be granted in the following circumstances:

- Internal photos of a non-consumer device may be held confidential if the device is not accessible to the general public.

Medtronic, Inc . (“Medtronic”) requests that the internal photos pertaining to the above referenced application be withheld from the public disclosure in accordance with Section 0.457 and 0.459 of the Commission’s 47 C.F.R. Rules, following grant of the application.

Medtronic’s Acute Human Monitor will be used for Clinical Study use only. The AHM Module is a component being used as part of a Clinical Study System which is the subject of this filing and not available for general public to order. The Acute Homan Monitor will only be used in a Clinical Study environment .

Information regarding internal photos is not released to the public, the device cannot be obtained by the public, parties with access to this information is very limited and are required to sign a non-disclosure agreement.

It is with this understanding that we respectfully request the agency to honor our request to maintain internal photos confidential.

Respectfully,
