Inquiry on 06/26/2013 :

Inquiry:

An applicant, Medtronic Inc, has requested long term confidential treatment of their internal photos. I've attached their request for confidentiality letter. The device is a medical patient programmer that is not available for purchase by the general public. Medtronic has a history of obtaining long term confidential treatment of their internal photos. Reference: FCC ID: LF5MICSW2. Based upon this prior history, and the justification they've provided in the attached letter, we are seeking the Commission's permission to upload the internal photos as long-term confidential exhibits.

We understand this would be a waiver to the policy stated in FCC KDB 726920 D02 v02, Item c.

FCC response on 07/01/2013

The confidentiality request is acceptable as stated under the guidance of KDB #726920 dated 12/3/2012. You may upload the internal photos.
