Request for Short-Term Confidentiality

To Whom It May Concern:

In accordance with 0.457 and 0.459 of CFR 47, Medtronic requests short-term confidentiality for the test setup photos, external photos, internal photos, and user's manual of the subject filing.

These documents contain detailed system and equipment descriptions and related information about the product, which Medtronic considers to be proprietary, confidential, and a custom design that are not released to the general public. Since this design is a basis from which future technological products will evolve, Medtronic is of the opinion that this information would be of benefit to its competitors and the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Sincerely,

Phillip Inglis  
Consultant to Medtronic
