In re: Application for certification of a Medical Implant Transceiver
FCC ID:LF5MICSIMPLANT2

Gentlemen:

Submitted herewith is a request for delay in issuing the certification for a Medical Implant Communications system transmitter, FCC ID:LF5MICSIMPLANT2. The requested grant date when the application was filed was October 30, 2007, however, due to delays in getting the approval of the medical authority we are requesting a new grant date of March 1, 2008.

If you have any questions, please call Phillip Inglis at 410 531 3439 or contact via email at jinglis@erols.com. It is also requested that you forward copies of any correspondence and authorization documents to the email address specified above.

Sincerely,

Phillip Inglis
Consultant
