In re: Request for application for certification of FCC ID:LF5MICSIMPLANT3 to be issued immediately upon completion of technical review.

Dear Mr. Dichoso:

The application for certification of the reference FCC ID was submitted to the Laboratory on May 2, 2012. That application requested a delay in issuance of the applied for grant of certification for the referenced FCC ID until 9/30/12.

Via this letter, Medtronic is requesting the Grant for FCC ID:LF5MICSIMPLANT3, be issued immediately upon completion of the technical review. Medtronic also acknowledges/confirms that the following request will cancel the Deferred (DF) request dated 9/30/12 as stated in the original application.

Sincerely,

Phillip Inglis
Consultant to Medtronic.
