Radio Regulatory Compliance Information

For devices supporting wireless telemetry

Caution: Investigational device. Limited by Federal law (USA) to investigational use.

FCC Compliance Information (FCC ID: LF5MICSIMPLANT4):

The following provision applies to the low frequency communications system in the device: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The following provision applies to the UHF communications system in the device: This transmitter is authorized by rule under the Medical Device Radiocommunication Service (in part 95 of the FCC Rules) and must not cause harmful interference to stations operating in the 400.150–406.000 MHz band in the Meteorological Aids (i.e., transmitters and receivers used to communicate weather data), the Meteorological Satellite, or the Earth Exploration Satellite Services and must accept interference that may be caused by such stations, including interference that may cause undesired operation. This transmitter shall be used only in accordance with the FCC Rules governing the Medical Device Radiocommunication Service. Analog and digital voice communications are prohibited. Although this transmitter has been approved by the Federal Communications Commission, there is no guarantee that it will not receive interference or that any particular transmission from this transmitter will be free from interference.

The following statement applies to the wireless receiver within the device: This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.
