Subject: FCC ID: LGYBT261159P

Mr. Fujimoto:

In order for processing of this certification application (FCC ID: LGYBT261159P) to continue, the following issue(s) will have to be addressed:

- 1) The internal FCC label appears to be a paper stick-on label, which is not allowed under the rules. Please indicate the type of material of the label.
- 2) The authorization letter must be addressed to CETCB, and not the FCC in the text of the letter.
- 3) Please provide data showing compliance with voltage variation requirements of section 15.31(e) of the FCC rules.
- 4) The block diagram submitted is not sufficient. It must show the frequency of all oscillators in the device, and indicate the signal path and frequency at each block.
- 5) A user's manual was submitted only for the OC2-L printer. Please submit the manual for each printer.
- 6) The certification contract on file is out of date. Please submit a signed copy of a current contract.

The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website. Your correspondence number is LGYBT261159-1.

Best regards,

Scott McCutchan
