Subject: Application for Single Modular Approval, FCC ID: LHJ-BL28NA001, IC ID: 2807E-BL28NA001

Dear Application Examiner,

The purpose of this filing is to apply for a new certification of a single module employing cellular LTE and WCDMA technologies.

The manufacturer does not provide the antennas but defines the maximum antenna gains that may be used in the integration manual. The maximum antenna gains were determined for compliance with output power and RF exposure.

Your efforts in reviewing this application are greatly appreciated. Please contact me if there are questions or additional information needed concerning this request.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jeremy Pickens'. The signature is fluid and cursive.
