Dear Sir/Madam,

Re: Request for FCC module certification for FCC ID: LHJ-BL28NA003

We hereby request a Single-Modular certification for the FCC ID referenced above.

Requirement (47CFR15.212 / KDB996369)		Comply (Y/N) – Explanation
1.	The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Y – The device has its own RF shielding
2.	The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Y – The device has buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal
3.	The module must contain power supply regulation on the module	Y – The device has power supply regulation on the module
4.	The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	NA – The device is a licensed device, so the Part 15 rule parts do not apply.
5.	The module must demonstrate compliance in a stand-alone configuration	Y – The device has demonstrated compliance in a standalone configuration
6.	The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748);	Y – The device will be labeled with its permanently affixed FCC ID label
7.	The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee	Y – The device does comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee
8.	The module must comply with RF exposure requirements	Y – The device does comply with RF exposure requirements
