**Subject:** Well-tech 925TX info requested

Hi, Helen.

Here is the info needed for Well-tech 925 Tx application: operational description and user manual. For user manual, when I changed it into PDF file, less resolution. Anywat, I also attach the Original JPG file.

regards,

Wei

Hello Wei,

We received 9 submission files. I just looked at them. It seems the manual is not related to this application, it says "GOTO automatic faucet". Please resend the manual, also please make sure the user information as specified in FCC 15.21 is included.  
You also forgot to submit the Operational Description. Please submit it asap.

Thank you,  
Helen
